

Everteam and Spigraph join forces to become the European leader in Digital Transformation

Lyon, FR – 2018-04-02 – Everteam, the global leader in information governance, and Spigraph, the European leader in the capture and digital transformation market, announced their capital link-up this month. Everteam's customers are large international accounts in the United States, Europe, the Middle East and Asia.

Thanks to Spigraph's reseller network, of more than 6,000 partners in Europe and Maghreb, Everteam will be able to access the small and medium-sized enterprise (SMEs) market and offer new solutions to help this mass-market move forward on the path of digitalization and digital compliance.

The Everteam Group and Spigraph represent more than 600 employees and a turnover of more than 100 M €.

Effective on May 25, 2018, the new General Data Protection Regulation (GDPR) will affect all enterprises, large, medium and small. These enterprises will have a duty to ensure to their customers, suppliers and employees, a management of personal data in accordance with legal obligations. Spigraph will enable the markets of SMEs and Intermediate-sized enterprises, via its network and thanks to Everteam ready-to-use solutions, to have new tools to manage the identification, use, destruction and portability of personal data as well as complying with the GDPR.

"Everteam has brought its expertise in information governance to the market for more than 25 years, much to the satisfaction of hundreds of thousands of users around the world," said Béchara Wakim, Everteam Group Chairman. "The arrival of Spigraph in the Everteam Group marks an important step in our strategy: to strengthen our position as a world leader by opening up to the SME market".

"Our mission at Spigraph has always been to offer European and Maghreb companies a wide range of scanners and software to meet all their needs in terms of digital transformation," said Daniel Chautard, President and Founder of the Spigraph Group. "Joining forces with Everteam to launch Spigraph 3.0 is a continuation of this mission, and provides innovative solutions to better serve our customers, while consolidating our historical base."

About Everteam

Founded in 1990 and with presence in more than 35 countries, Everteam is a software publisher specialized in information governance, artificial intelligence and content management.

Combining expertise and technological innovations thanks to Everteam.Lab, everteam solutions are suitable to different business contexts and enable organizations such as Bouygues Construction (global player in construction), Safran (international high-technology group), NHS (National Health Service of the United Kingdom), Florida Blue (large insurance company in the United States), as well as hundreds of world leading companies, to govern their information assets while reducing costs and risks.

About Spigraph

Established in France since 1997, Spigraph has the largest partner's network with more than 6,000 resellers and 40,000 customers across 16 different countries. Spigraph acts as a Value Added Distributor of manufacturers and independent software vendor. This strategic position gives it a key role in the market where it creates a permanent bridge between suppliers and the market but also effectively supports organizations throughout their projects linked to the document capture chain.
