Spigraph Network to showcase new technology at Overheid 360 congress

Houten, The Netherlands, 20 April 2015: Spigraph Network, the leading document capture solutions and services provider in EMEA, announced today that it will present new technology solutions for intelligent scanning and document capture on 22nd and 23rd April at Overheid 360, the largest industry congress in The Netherlands for IT professionals within government agencies. The Spigraph Network booth will showcase IT hardware and software solutions for government processes, offer demonstrations and provide consultancy expertise from subject matter experts on a wide range of technology from industry-leading providers, including ibml, Canon, Kofax and CumulusPro.

Visitors to the Spigraph Network booth will be able to see first-hand the newest ibml ImageTrac-Lite® scanner powered by SoftTrac® Capture Suite for secure, high-speed, intelligent scanning processes and CumulusPro's innovative cloud and mobile capture software for government and citizen services. Spigraph Network will also provide live demonstrations of Canon's imageFORMULA DR-C240, which is not yet available for sale. The imageFORMULA DR-C240 is an ultra-compact and powerful desktop scanner for capturing multiple document sizes and formats, including passports, plastic identity cards, forms, checks and receipts and perfectly suited for busy workgroups, document processing for citizen services, and other customer-facing environments.

"With the continued expansion of our IT hardware and software portfolio powered by technology from industry leaders such as ibml, Kofax, Canon and CumulusPro, Spigraph Network is well positioned to provide IT professionals in government organizations with best-in-class scanning, advanced capture and process solutions," says Wayne Davey, CEO Spigraph Group. "The Spigraph Network team has years of experience working together with our valued partners across the Netherlands in successfully managing projects ranging in scope from the largest sectors of Dutch government to regional departments and city administrative offices."

Spigraph Network and its technology partners will be hosting information sessions and demonstrations each day at Booth E040, Overheid 360, at the Jaarbeurs Congress Hall in Utrecht. To schedule a meeting, please contact sales.nl@spigraph.com.

These unprecedented solutions also place CumulusPro at the forefront of document capture technology across a wide range of industries – from financial services to insurance, healthcare, business process outsourcing, and government. With offices in Singapore, Malaysia, Switzerland, and Australia, CumulusPro has an extensive network of partners and customers in key markets across continents.

About Canon Europe

Canon Europe is the regional sales and marketing operation for Canon Inc., represented in 116 countries and employing 17,000 people across Europe, the Middle East and Africa (EMEA).

Founded in 1937 with the specific goal of making the best quality camera available to customers, Canon's tireless passion for the Power of Image has since extended its technology into many other markets and has established it as a world leader in both consumer and business imaging solutions. Its solutions comprise products, ranging from digital compact and SLR cameras, through broadcast lenses and portable X-ray machines, to multi-function and production printers, all supported by a range of value added services. Canon invests heavily in R&D to deliver the richest and most innovative products and services to satisfy customers' creative needs. From amateur photographers to professional print companies, Canon enables each customer to realise their own passion for image.

Canon's corporate philosophy is Kyosei – 'living and working together for the common good'. In EMEA, Canon Europe pursues sustainable business growth, focusing on reducing its own environmental impact and supporting customers to reduce theirs using Canon's products, solutions and services. Canon has achieved global certification to ISO 14001, demonstrating a world-class environmental management standard.
